

ESA's Annual Space Environment Report

Dr. Holger Krag ESOC

ESA has decided to publish an annual report on the space environment, characterising:

- the evolution of the tracked population
- the evolution and characteristics in debris generating events
- success statistics on disposal actions in LEO and GEO

The report is freely available at:

https://www.sdo.esoc.esa.int/environment_report/Environment_Report_I1R2_20170427.pdf
